Re: Docket # 19-9005
Application for Albireo Energy, LLC to provide Electric Supply Services

Dear Ms Marshall:

Enclosed please find additional information requested to support our application to provide electric supply services in the State of Delaware.

Section 2.2.2 State of Formation Certificates

- We have requested a waiver to this requirement as Albireo Energy, LLC is a Michigan corporation and the State of Michigan do not provide or require business licenses
- We have spoken to multiple departments at the State to get proof that no license is required. The State have advised they do not have any mechanism to provide documents stating that no license is required for our type of business
- We submit the attached search from the Licensing and Registration Authority (LARA) website in Michigan that states "no state license is required for management, marketing, labor relations, environmental, computer consulting services" in the State of Michigan
- Further, when searching for the licensing requirements for "Energy Broker" or "Electric Broker" in LARA no results are returned, further supporting our claim that the State requires no business license for our type of business or activities

Section 2.1.6 Verification of Application

- Please see attached the signed and notarized affidavit

Respectfully,

Rudi Miklosvary
